When she woke, she found herself in darkness. She couldn't move. She was going to die and she had no idea why...

When the body of Lola Evans is found in a river in a local park on a cold winter's morning, **Detective Alex King and her new recruit Chloe Lane** are called in to lead the hunt for the killer.

Days later, another girl goes missing, and another body is found in the water. It seems the two girls shared a troubled history, and were members of the same support group. What secrets were they keeping? And who is the monster preying on these vulnerable girls?

As the detectives start to piece together the clues, **it becomes clear that the murderer's reach goes even further - back into the painful past of Chloe Lane herself. Chloe realises that she too is in danger** - as she uncovers secrets about her own brother's death which someone will kill to keep hidden.

Alex and Chloe are soon caught in a race against time to reach the next victim before it's too late... and they must face terrifying truths from their own lives to have a chance of catching the killer.

Chilling and totally compelling with an utterly surprising twist, *The Girls in the Water* is perfect for fans of **Robert Bryndza, Sarah Hilary, and Patricia Gibney.**
